# Sestriere

Sestriere sits at the heart of one of Europe's biggest ski areas known as the Via Lattea (Milky Way).

There are 146 skiable pistes which together total 390km of runs, of which 120 km are covered with snowmaking facilities. The skiing is divided between 2 north west facing peaks. A gondola provides easy access out of Sestriere into the rest of the ski system.

The resort hosts regular Skiing World Cup events and was the heart of the Alpine skiing world in 2006 when the Olympics were held in Turin.
